

Meritech's CleanTech Handwashing System Used at Mike's Pizza in Angels Camp, CA

GOLDEN, Colo. June 2008 — Meritech, Inc., a leader in automated handwashing and sanitizing technology, announced today that its CleanTech 400 Handwashing System is in use at Mike's Pizza in Angels Camp, CA.

Mike's Pizza makes hundreds of Pizza's a day as well as subs and salads. The establishment was voted best pizza maker and salad bar in Calaveras County and offers a full menu of food including smoked ribs, pastas, chicken dishes and more. Mike's Pizza has been in business for over 15 years and can be reached at (209)736-9246.

"We saw the CleanTech Handwashing system at the National Restaurant Show in 2007 and knew immediately that we wanted it in the restaurant," said Christine Curl, manager of the establishment. "I love how easy it is for the kitchen workers to keep their hands clean. It also is much faster than simply washing your hands in a sink and we all wash our hands more often because of the CleanTech."

The CleanTech touchless system performs a fully-automated twelve-second wash, sanitize and rinse cycle. Using Meritech's proprietary Chlorhexidine Gluconate (CHG) sanitizing solution, the single cycle removes over 99.9% of pathogens and continues to kill germs for up to six hours. The FDA certified CHG-based sanitizer contains mild skin conditioners to continuously improve skin health while removing dangerous germs.

The system further boosts compliance by ensuring a pleasant, uniform handwash using high-pressure water jets that perform a consistent wash-and-sanitize cycle every time the machines are used.

About Meritech

Meritech, Inc., a division of Resurgent Health and Medical of Golden, Colo., delivers state of the art employee hygiene technologies to hospitals and healthcare facilities that are serious about infection prevention and the elimination of dangerous pathogens in the healthcare industry. Our patented CleanTech® infection prevention technology brings science and precision to the process of removing dangerous microbes from employee hands. For almost 20 years, its CleanTech® brand systems have been used worldwide in agriculture, food processing, food service, cleanroom manufacturing and healthcare. CleanTech uses up to 75% less water than manual handwashing, discharges 75% less wastewater, and reduces waste in soap utilization. For more information, visit <http://www.meritech.com/>
