

## **Resurgent Health and Medical announces that Children's Hospitals and Clinics of Minnesota has ordered 25 CleanTech Automated Handwashing Systems**

*Hospital makes proactive choice to elevate hand hygiene measures for patients, staff and visitors*

GOLDEN, Colo. and Minneapolis, MN, August 11, 2008 — Resurgent Health and Medical, a leader in automated handwashing and sanitizing technology, announced today that Children's Hospitals and Clinics of Minnesota has ordered 25 CleanTech IC handwashing systems for its locations in Minneapolis and St. Paul. The hospitals will have the units located in various hallways for all medical staff, patients and visitors to use.

The CleanTech touchless system performs a fully-automated twelve-second wash, sanitize and rinse cycle. Using Resurgent's proprietary Chlorhexidine Gluconate (CHG) sanitizing solution, the single cycle removes over 99.9% of pathogens and continues to kill germs for up to six hours. The FDA certified CHG-based sanitizer contains mild skin conditioners to continuously improve skin health while removing dangerous germs.

The system further boosts compliance by ensuring a pleasant, uniform handwash using high-pressure water jets that perform a consistent wash-and-sanitize cycle every time the machines are used.

### **About Children's Hospitals and Clinics of Minnesota**

Serving as **Minnesota's Children's Hospital**<sup>SM</sup> since 1924, we are the eighth-largest children's health care organization in the United States, with 332 staffed beds at our two hospital campuses in St. Paul and Minneapolis. An independent, not-for-profit health care system, Children's provides care through over 14,000 inpatient visits and more than 200,000 emergency room and other outpatient visits each year. Children's has been a leader in patient safety and infection prevention and control. For more information, visit Children's Web site at [www.childrensmn.org](http://www.childrensmn.org).

### **About Resurgent Health & Medical**

Resurgent Health and Medical delivers state of the art employee hygiene technologies to hospitals and healthcare facilities that are serious about infection prevention and the elimination of dangerous pathogens in the healthcare industry. Our patented CleanTech® infection prevention technology brings science and precision to the process of removing dangerous microbes from employee hands. For almost 20 years, its Cleantech® brand systems have been used worldwide in agriculture, food processing, food service, cleanroom manufacturing and healthcare. CleanTech uses up to 75% less water than manual handwashing, discharges 75% less wastewater, and reduces waste in soap utilization. For more information, visit <http://www.resurgenthealth.com>
